# BREAKOUT SESSIONS

OCT  
22  
WEDNESDAY

## BREAKOUT SESSIONS # 1-3 SELECT ONE FROM THE LIST

### **BREAKOUT SESSION #1 - PRIME-BC SUPPORT**

**Presenter: PRIME Corp**

An overview of our new ticketing system, detailing how incidents and service requests are managed from submission to resolution. Attendees will gain insights into the updated workflow, key improvements, and best practices for efficiently handling tickets. We'll walk through the entire process—from ticket creation to completion—ensuring a seamless experience for both users and service teams. Join us to learn how these changes enhance efficiency and improve overall service delivery.

### **BREAKOUT SESSION #2 - INTELLIBOOK ROAD MAP & QA SESSION**

**IDEMIA Presenter: Akash Shah, Sr Director Engineering Operations & Spica Gao, Director Engineer**

Focusing on IDEMIA's IntelliBook product roadmap and providing participants with an in-depth look at upcoming features, enhancements, and strategic direction. The session will highlight how IntelliBook is evolving to meet customer needs, improve efficiency, and support secure, streamlined processes

### **BREAKOUT SESSION #3 - ENHANCED PRACTICES FOR A MORE RESILIENT ORGANIZATION**

**Burnaby RCMP Presenter: Andrea Alderson, Director Police Services & Tracey Rilcoff, PRIME Specialist**

After 13 years of using Versaterm systems, Burnaby RCMP initiated their first data purge, removing hundreds of thousands of files. Before that purge, they assumed that they had only accurate data; but, while preparing for their first purge they came to understand that any incorrectly coded event could lead to premature deletion or artificial extension of their files. To mitigate the risk of bad data, they developed more resilient practices. This workshop will provide you with excellent reminders to ensure your organization is doing all it can to ensure decisions based on data are reliable.

## BREAKOUT SESSIONS # 4-6 SELECT ONE FROM THE LIST

### **BREAKOUT SESSION #4 - NEW INFORMATION AND TRAINING ON THE UCR 2.3 & 2.4 FROM STATISTICS CANADA**

**Statistics Canada Presenter: Warren Silver, National Training Officer**

With all BC agencies switching onto the latest version of the Uniform Crime Reporting Survey, Warren Silver from the Canadian Centre for Justice and Community Safety Statistics (CCJSS) at Statistics Canada, will lead a training of the new variables and changes. This includes new firearms variables, new cybercrime variables and changes to the hate crime variables. Warren will also be answering questions on all versions of the UCR and will provide an update on the upcoming UCR 2.5 which will include changes to collect Police-reported Indigenous and Racialized Identity Data (PIRID).

### **BREAKOUT SESSION #5 - EXPLORING THE CAPABILITIES OF AXON'S AI ERA BUNDLE**

**Axon Presenter: Adam Hassan, Principal Sales Engineer**

Dive into the transformative capabilities of Axon's AI Era bundle in this focused breakout session. Designed to empower police agencies through advanced artificial intelligence, the AI Era bundle integrates a suite of intelligent tools that enhance evidence analysis, decision-making, and operational efficiency. Experience how cutting-edge features like automated transcription, intelligent redaction, live translation, policy chat, predictive analytics, and real-time insights work together to reduce workload and increase accuracy. Discover how Axon's AI-driven solutions are setting a new standard for digital policing and public safety, fostering better communication, compliance, and operational effectiveness.

### **BREAKOUT SESSION #6 - VERSATERM DAY 1**

**Versaterm Presenter: David Kimbers, Partner Success Manager & Kelly Barker, Account Manager**

"Ask an Expert" sessions covering MRE/MDT upgrade, CAD/RMS/MNI and general topics.

# BREAKOUT SESSIONS

OCT  
23  
THURSDAY

## BREAKOUT SESSIONS # 7-9 SELECT ONE FROM THE LIST

### **BREAKOUT SESSION #7 - ZERO TRUST, REAL RESULTS: OUR JOURNEY TO A MODERN SECURITY MODEL**

**PRIMECorp Presenter: Stephen Cluff, Solution Architect**

In a world where perimeter-based defenses are no longer enough, Zero Trust offers a proactive, identity-centric approach to cybersecurity. This session explores what Zero Trust really means - beyond the buzzword - and walks through our organization's real-world journey in adopting it. From early challenges to measurable gains, learn how we redefined trust, tackled legacy systems, and fostered a culture of security-first thinking.

### **BREAKOUT SESSION #8 - ACCELERATING DISCLOSURE: AXON'S REDACTION ASSISTANT'S ADVANCED AI CAPABILITIES**

**Axon Presenter: Katie Aimes, Principal Product Manager**

Join us for an in-depth session showcasing the latest AI-driven advancements in Axon's Redaction Assistant. Learn about our latest redaction improvements including enhanced object models designed specifically for officer notes, phone screens, and ID cards that significantly improve the accuracy and speed of sensitive information redaction. Through a live demo, see firsthand how these improvements help safeguard privacy, streamline the redaction process, and reduce manual workload, empowering law enforcement agencies to achieve faster disclosure times.

### **BREAKOUT SESSION #9 - VERSATERM DAY 2**

**Versaterm Presenter: David Kimbers, Partner Success Manager & Kelly Barker, Account Manager**

TBA

## BREAKOUT SESSIONS # 10-12 SELECT ONE FROM THE LIST

### **BREAKOUT SESSION #10 - PROPERTY MANAGEMENT**

**Presenter: PRIMECorp**

An operational and technical review of the RMS Property Management module, highlighting configuration considerations, PR Notifies, and property ticket issues.

### **BREAKOUT SESSION #11 - THE AUGMENTED OFFICER: AI AS A PARTNER, NOT A REPLACEMENT**

**RCMP Presenter: Inspector Quinn Provost & Jordan Forrest, Engineering Technologist**

This interactive presentation features live demonstrations of Project AURA, an AI system designed to be a valuable partner for frontline officers. AURA goes beyond traditional tools by offering support in areas like generating helpful reports, suggesting leads, performing in-depth research, and providing timely alerts, all tailored to the specific needs of their current task.

### **BREAKOUT SESSION #12 - UNLOCKING THE POWER OF THE AXON API: A VPD CASE STUDY**

**VPD Presenter: Oxana Riumina, System Analyst/Project Manager & Tracy Yeung, System Analyst/Project Manager & Victor Quan, Project Manager**

The purpose of this presentation is to examine the business problems and opportunities we encountered as we became more integrated with Axon products and how our internal team was able to leverage the Axon API to solve issues and improve processes. Examples include automated Body Worn Video Tagging and Renaming, the Report to Crown Counsel Wizard, and Community Request integration with Online Crime Reporting.
